# Allergy Awareness for those Working with Children Level 2

## Course Overview

Welcome to the Level 2 Allergy Awareness course designed for individuals who work with children. As a childcare provider or educator, it is essential to understand and manage allergic reactions effectively to provide a safe and secure environment for children with allergies.

In this course, you will learn about various types of allergies, including food allergies, insect stings, and environmental allergies. You will also gain an understanding of how allergies can affect children's health, how to recognize the signs and symptoms of an allergic reaction, and what to do in case of an emergency.

Additionally, this course will provide you with practical strategies and best practices for managing allergies in your work setting. You will learn how to communicate effectively with parents and guardians of children with allergies and develop an action plan to prevent and respond to allergic reactions.

By the end of this Level 2 Allergy Awareness course, you will have the knowledge and skills to provide a safe and inclusive environment for children with allergies, ensuring that they can participate fully in all activities without any unnecessary risk.

## What is the cost?

As a result of government funding, this qualification is currently offered at no cost. However, please note that the number of funded places can be limited. To ensure you secure your spot, we recommend booking early.

## How do learners benefit?

This course would benefit learners by providing them with the knowledge and skills to recognize, prevent, and manage allergic reactions in children, as well as practical strategies for communicating with parents and creating a safe and inclusive environment for children with allergies.

Additionally, learners will earn a Level 2 Allergy Awareness certificate, which can enhance their employment opportunities and demonstrate their commitment to providing a safe environment for children with allergies.
