Care Planning

Level 2

Course Overview

Welcome to the Level 2 Course in Principles of Care Planning. This course is designed to provide you with an understanding of the fundamental principles of care planning in health and social care settings.

Care planning is an essential aspect of delivering quality care, and this course will equip you with the knowledge and skills necessary to provide effective care planning for individuals. The course content covers a range of topics, including person-centred thinking and planning, care planning for the care worker, nutrition and hydration, personal hygiene, continence care, and supporting sleep.

You will learn how to work collaboratively with individuals, taking into account their unique strengths, needs, and preferences. You will also gain an understanding of the legal and ethical considerations that underpin care planning, as well as the importance of effective communication, documentation, and teamwork.

Through this course, you will develop the skills necessary to provide high-quality care and support to individuals, enabling them to live a fulfilling and independent life. The course is suitable for individuals who are interested in pursuing a career in health and social care or for those already working in the sector who wish to enhance their knowledge and skills.

What is the cost?

As a result of government funding, this qualification is currently offered at no cost. However, please note that the number of funded places can be limited. To ensure you secure your spot, we recommend booking early.

How do learners benefit?

Taking the Level 2 Course in Principles of Care Planning would benefit learners by providing them with a comprehensive understanding of care planning in health and social care settings.

This course will equip learners with the knowledge and skills necessary to deliver high-quality care to individuals, enabling them to live a fulfilling and independent life. Additionally, learners will gain an understanding of the legal and ethical considerations that underpin care planning and develop essential employability skills that will enhance their prospects in the health and social care sector.

Overall, this course provides an excellent foundation for learners who wish to pursue a career in health and social care or enhance their knowledge and skills in the field.
