Safe Handling of Medication Level 2

Course Overview

Welcome to the Safe Handling of Medication Level 2 course. This comprehensive training program is designed to equip you with the essential knowledge and skills required for safe handling, storage, and administration of medications.

Throughout this course, you will learn about the different types of medication, their classifications, and how to maintain accurate records for audit purposes. You will also gain an understanding of the correct procedures for stock maintenance, storage, and disposal of medication.

This course will provide you with up-to-date information on best practices and guidelines to ensure that you have the relevant skills, knowledge, and understanding to improve the service user experience. By the end of this course, you will have the confidence to handle medication safely and effectively, ensuring the highest standards of care are maintained.

What is the cost?

As a result of government funding, this qualification is currently offered at no cost. However, please note that the number of funded places can be limited. To ensure you secure your spot, we recommend booking early.

How do learners benefit?

Taking the Safe Handling of Medication Level 2 course would provide numerous benefits to learners.

Firstly, it would equip them with the knowledge and skills required for safe handling, storage, and administration of medication, ensuring they can provide the highest standard of care for their patients or clients.

Secondly, learners would gain a good understanding of the different types of medication and their classifications, enabling them to make informed decisions when dealing with medication-related issues. Additionally, learners would develop the ability to maintain accurate records for audit purposes, which is essential in any healthcare setting.

Finally, the course would enhance learners' professional development, providing them with the relevant skills, knowledge, and understanding to improve the service user experience.
